DURA FORCE PRO 2 by KYOCERA

android enterprise recommended

RUGGED, WATERPROOF AND DROP PROOF
Certified IP68 dust and waterproof[2], and Military Standard 810G protections against dust, drop, shock, vibration, high altitude, humidity, icing and freezing rain, temperature extremes and more.

DRAGONTRAIL™ PRO DISPLAY
DuraForce PRO 2's touchscreen is built for durability using Dragontrail™ PRO's display technology. The display and camera lens are scratch and crack resistant, and handle higher compression stress than traditional glass.

PROTECTION IN HAZARDOUS LOCATIONS
Non-incendive Class I, Division 2, Group A-D, T4 certified for use in classified hazardous work environments where concentrations of flammable gases, vapors, or mists are not normally present in an explosive concentration (but may accidentally exist). Ideal for plant and field operations that need maximum security.

MORE CAMERA OPTIONS
Choose from a variety of photo and video options for capturing essential project data. 13MP camera + 5MP front-facing camera; 4K super wide view action camera for capturing a variety of shots. Underwater Mode[3] enables use of the phone's hard keys for taking photos, recording video, or zooming in and out, all while underwater.

STRONGER SECURITY
Fingerprint security sensor on the phone's power button for biometric authentication and FIDO® app support allows simple, robust authentication for popular mPayment/mCommerce protocols.

STAY PRODUCTIVE
Work efficiently and effectively with Glove and Wet Touchscreen Operation[4], enhanced Enterprise Grade Wi-Fi for VoIP, and Android Enterprise Recommended certfied.

BUILT FOR ENHANCED PUSH-TO-TALK (EPTT)[5] SERVICES
Large dedicated side button, loud dual front speakers, powerful battery, support for EPTT accessories like headsets and Remote Speaker Mics. And One-Touch EPTT support over Wi-Fi and LTE means expanded coverage.

IP68 - dust/water spray/water immersion up to 6.5 feet (2 meters) for 30 minutes

Hazardous Location Protection - Non-Incendive, Class I, Division 2, Group A-D, T4

1. Times will vary based on user settings, feature use, and network configuration.
2. Certified waterproof for up to 6.5 feet (2 meters) for 30 minutes. Before immersing your phone in water, make sure all ports and covers are properly seated, with no foreign objects obstructing the seals, to maintain the waterproof capability. The phone should never be used under water with a broken or open SIM/microSD slot cover (located under battery cover).
   If your phone gets wet:
   - Water in the phone's open microphone and speaker ports may affect outbound audio quality and speaker performance. These are temporary conditions and will subside once the phone is dry.
   - Dry your phone with a clean cloth before charging.
3. Avoid using your phone in saltwater. It is highly corrosive and can damage internal components and degrade the audio performance over time. Always rinse your phone in fresh water immediately after using it underwater.
4. Recognizes touch input while wearing gloves up to 3mm thick; the material, texture and thickness of the glove as well as how it fits your hand will impact performance. Individual results may vary.
5. Additional fees may apply.
