Highlights

Swype®

Swype provides a faster and easier way to input text on any screen. With one continuous finger motion across the screen keyboard, the patented technology enables users to input words faster and easier than other data input methods. In addition Swype supports predictive tap.

Example: You
To capitalize the letter, slide up over the keyboard.

Example: dog
Place your finger on the key with the first letter of the word and glide to the following letters. Lift your finger after the last letter.

Example: cool
For double letters, circle the letter.

Compact design comfortably fits to the contours of your hand.

Convenient tactile keys for Home, Menu, Back and Search.

Familiar, slide-out QWERTY keyboard with large separated keys.

Eco Mode

The Eco Mode allows you to save battery life while using your device.

- Press Home and Touch > Eco Mode.
- Drag the on-screen slider to select when you use the Eco Mode.
 - > Always: Sets your device to always use the Eco Mode.
 - > 10 - 90% Selects the remaining battery power when the Eco Mode activates. For example, 40% means the Eco Mode activates when the remaining battery power reaches 40%.
 - > Never: Disables Eco Mode.

- Touch Eco settings to select the Eco Level.
 - > Screen timeout to set the screen timeout to 15 seconds.
 - > Display brightness to decrease the display brightness.
 - > Wallpaper to select the Eco wallpaper.
 - > Auto-sync to disable synchronizing the applications.

- > Haptic feedback to turn off Haptic feedback feature.
- > Auto-sync to disable synchronizing the applications.

5. Touch Close.

When Eco Mode is on, the Eco Mode icon appears on the status bar.

Configured settings in the Eco Mode are automatically reflected in the respective Settings menu and vice versa.
